1968 Ford Thunderbird ~ \$50 Ticket

Information on the car: A fifth-generation Thunderbird model, one owner, driven for 10 years then put into storage. Recent work completed: rebuilt carburetor, fuel pump, & starter installed. New: radiator, radiator & heater hoses, windshield & tires installed. Completely detailed by a professional.

Interior is immaculate-like off the showroom floor. Seats are two toned brown & beige in excellent condition. The car has the original Ford floor mats. There is no wear or tear in the upholstery & the headliner is perfect. The windows are manually operated, cigarette lighters located on both rear doors as per that era.

Original paint (pewter mist), Landau vinyl top in excellent condition. No major dents in the body, a very small rust spot & passenger rear quarter panel has a small visible dent. Powered by a 429ci V-8 "Thunder Jet" with four-barrel carburetor. Advertised power is 360 horsepower. Drive is sent to the rear wheels via a C6 automatic transmission, set of mag wheels. Air conditioning (needs freon), heater (blowing motor needs work), AM-FM radio, aftermarket 8 track player, body-on-frame assembly with rubber body mounts. The car is equipped with vacuum-operated hideaway headlights & riveted body tag is intact.
